

# Safety Data Sheet According to Hazard Communication Standard (29 CFR 1910.1200)

L-HG 68 Slideway Hydraulic Oil

Version 1.0 Issue date: 06/11/2020 Revision date: 06/11/2020

## SDS record number: CSSS-TCO-010-141130

1. Product and Company Identifi	cation
Material name	L-HG 68 Slideway Hydraulic Oil
CAS #	See section 3
Product code	60208220
Product use	Suitable for lubrication of low/moderate pressure hydraulic system and slide-way o high precision machine tool.
Manufacturer/Supplier	
Supplier(Manufacturer):	SINOPEC LUBRICANT CO., LTD.
Address:	No. 6 Anning Zhuang West Road, Haidian District, Beijing, P.R.China
Contact person(E-mail):	csc.lube@sinopec.com
Telephone:	00-86-95388-3
Fax:	86-10-82410856
Emergency telephone Number:	00-86-95388-3
2. Hazards identification	
GHS classification	
Physical hazards	Not classified
Health hazards	Not classified
Environmental hazards	Not classified
GHS label elements	
Hazard Pictograms	No hazard pictogram is used.
Signal word	No signal word is used.
Hazard statement	Not applicable.
Precautionary statement	
Prevention	Not applicable.
Response	Not applicable.
Storage	Not applicable.
Disposal	Not applicable.
Other hazards	Not available.
3 Composition / Information on	

## 3. Composition / Information on Ingredients

Components	CAS#	Percent
Mineral oil	8042-47-5	93.5 – 98.6 %weight
Benzotriazole	73936-91-1	0.2 - 1.5%weight
Alkenyl ester sulfide	Mixture	1.2 – 5.0%weight

# 4. First Aid Measures

## First aid procedures

Eye contact	No specific first aid measures are required. As a precaution, remove contact
	lenses, if worn, and flush eyes with water.
Skin contact	No specific first aid measures are required. As a precaution, remove clothing and
	shoes if contaminated. To remove the material from skin, use soap and water.
	Discard contaminated clothing and shoes or thoroughly clean before reuse.
Material name: L-HG 68 Slideway Hydraulic Oil	SDS US

#### Inhalation

#### Ingestion

Notes to physician

#### 5. Fire Fighting Measure

Flammable properties

Extinguishing media

Suitable extinguishing media

Unsuitable extinguishing media Firefighting equipment/instructions

Hazardous combustion products

#### 6. Accidental Release Measures

Personal precautions

Environmental precautions Methods for cleaning up

# 7. Handling and Storage

Handling

No specific first aid measures are required. If exposed to excessive levels of material in the air, move the exposed person to fresh air. Get medical attention if coughing or respiratory discomfort occurs.

No specific first aid measures are required. Do not induce vomiting. As a precaution, get medical advice. Treat symptoms.

Not available

Use water fog, foam, dry chemical or carbon dioxide (CO2) to extinguish flames. Not available.

This material will burn although it is not easily ignited. For fires involving this material, do not enter any enclosed or confined fire space without proper protective equipment, including self-contained breathing apparatus.

Carbon monoxide, carbon dioxide, and unidentified organic compounds.

Eliminate all sources of ignition in vicinity of spilled material.

Do not let product enter drains.

Stop the source of the release if you can do it without risk. Contain release to prevent further contamination of soil, surface water or groundwater. Clean up spill as soon as possible, observing precautions in Exposure Controls/Personal Protection. Use appropriate techniques such as applying non-combustible absorbent materials or pumping. Where feasible and appropriate, remove contaminated soil. Place contaminated materials in disposable containers and dispose of in a manner consistent with applicable regulations.

Avoid contaminating soil or releasing this material into sewage and drainage systems and bodies of water. Electrostatic charge may accumulate and create a hazardous condition when handling this material. To minimize this hazard, bonding and grounding may be necessary but may not, by themselves, be sufficient. Review all operations which have the potential of generating and accumulating an electrostatic charge and/or a flammable atmosphere (including tank and container filling, splash filling, tank cleaning, sampling, gauging, switch loading, filtering, mixing, agitation, and vacuum truck operations) and use appropriate mitigating procedures. For more information, refer to OSHA Standard 29 CFR 1910.106, 'Flammable and Combustible Liquids', National Fire Protection Association (NFPA 77, 'Recommended Practice on Static Electricity', and/or the American Petroleum Institute (API) Recommended Practice 2003, 'Protection Against Ignitions Arising Out of Static, Lightning, and Stray Currents'. Container is not designed to contain pressure. Do not use pressure to empty container or it may rupture with explosive force. Empty containers retain product residue (solid, liquid, and/or vapor) and can be dangerous. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose such containers to heat, flame, sparks, static electricity, or other sources of ignition. They may explode and cause injury or death. Empty containers should be completely drained, properly closed, and promptly returned to a drum reconditioner

#### or disposed of properly.

## Storage

Keep container tightly closed in a dry and well-ventilated place.

# 8. Exposure Controls / Personal Protection

# **Occupational exposure limits**

Components	Туре	Value	Form		
Mineral oil (CAS 8042-47-5)	PEL	5 mg/m3	Mist.		
US. ACGIH Threshold Limit Values					
Components	Туре	Value	Form		
Mineral oil (CAS 8042-47-5)	TWA	5 mg/m3	Inhalable fraction.		
US. NIOSH: Pocket Guide to Chemica	l Hazards				
Components	Туре	Value	Form		
Mineral oil (CAS 8042-47-5)	STEL	10 mg/m3	Mist.		
	TWA	5 mg/m3	Mist.		
Biological limit values	No biological exposure limits noted for the ingredient(s).				
Appropriate engineering controls:	Handle in accordance	ce with good industrial hygien	e and safety practice. Wash		
	hands before breaks	s and at the end of workday.			
Individual protection measures, such as p	personal protective equip	oment:			
Eye / face protection	No special eye prot	ection is normally required. V	Vhere splashing is possible, wea		
	safety glasses with	safety glasses with side shields as a good safety practice.			
Skin protection	No special protectiv	No special protective clothing is normally required. Where splashing is possible			
	select protective clothing depending on operations conducted, physic				
	requirements and other substances in the workplace. Suggested materials f				
	protective gloves include: Neoprene, Nitrile Rubber.				
Respiratory protection	No respiratory protection is normally required. No respiratory protection is ordinari				
	required under normal conditions of use. In accordance with good industri				
	hygiene practices, precautions should be taken to avoid breathing of material.				
	user operations generate an oil mist, determine if airborne concentrations a				
	below the occupational exposure limit for mineral oil mist. If not, wear an approve				
	respirator that provides adequate protection from the measured concentrations				
	this material. For air-purifying respirators use a particulate cartridge. Use a positiv				
	pressure air-supplyi	pressure air-supplying respirator in circumstances where air-purifying respirato			
	may not provide adequate protection.				
General hygiene	Wash hands, forear	Wash hands, forearms and face thoroughly after handling chemical products,			
considerations	before eating, smok	ing and using the lavatory and	d at the end of the working perio

Pour Point:	-12 °C (9°F) (Typical)

# 10. Chemical Stability & Reactivity Information

Reactivity	The substance is stable under normal storage and handling conditions.
Chemical stability	Material is stable under normal conditions.
Conditions to avoid	Incompatible materials. Heat. Hot surfaces. Flames.
Incompatible materials	May react with strong acids or strong oxidizing agents, such as chlorates, nitrates,
	peroxides, etc.
Hazardous decomposition products	Carbon monoxide, carbon dioxide, and unidentified organic compounds.
Possibility of hazardous reactions	No hazardous reactions known.
