

Safety Data Sheet

According to Hazard Communication Standard (29 CFR 1910.1200)

L-HV 46 Low Temperature Hydraulic Oil

Version 1.0 Issue date: 06/11/2020 Revision date: 06/11/2020

SDS record number: CSSS-TCO-010-141140

1. Product and Company Identif	ication
Material name	L-HV 46 Low Temperature Hydraulic Oil
CAS #	See section 3
Product code	60206871
Product use	Suitable for lubrication of moderate/high pressure system working in conditions of outdoor, severe cold regions and large ambient temperature variation or severe condition, such as hydraulic system of engineering, construction, mining and oi field machineries as well as ships and vehicles.
Manufacturer/Supplier	
Supplier(Manufacturer):	SINOPEC LUBRICANT CO., LTD.
Address:	No. 6 Anning Zhuang West Road, Haidian District, Beijing, P.R.China
Contact person(E-mail):	csc.lube@sinopec.com
Telephone:	00-86-95388-3
Fax:	86-10-82410856
Emergency telephone Number:	00-86-95388-3
2. Hazards identification	
GHS classification	
Physical hazards	Not classified
Health hazards	Not classified
Environmental hazards	Not classified
GHS label elements	
Hazard Pictograms	No hazard pictogram is used.
Signal word	No signal word is used.
Hazard statement	Not applicable.
Precautionary statement	
Prevention	Not applicable.
Response	Not applicable.
Storage	Not applicable.
Disposal	Not applicable.
Other hazards	Not available.

3. Composition / Information on Ingredients

Components			CAS#	Percent	
Mineral oil			8042-47-5	97.0 – 99.9%weight	
Phosphorodithioic acid, O,O-di-C1-14-alkyl		O,O-di-C1-14-alkyl	68649-42-3	0.1 - 3.0%weight	
esters, zinc salts			00049-42-3	0.1 - 5.0%weight	

4. First Aid Measures

First aid procedures

Eye contact

No specific first aid measures are required. As a precaution, remove contact lenses, if worn, and flush eyes with water.

Skin contact

No specific first aid measures are required. As a precaution, remove clothing and

Inhalation

Ingestion

Notes to physician

5. Fire Fighting Measure

Flammable properties

Extinguishing media

Suitable extinguishing media Unsuitable extinguishing media Firefighting equipment/instructions

Hazardous combustion products

6. Accidental Release Measures

Personal precautions Environmental precautions Methods for cleaning up

7. Handling and Storage

shoes if contaminated. To remove the material from skin, use soap and water. Discard contaminated clothing and shoes or thoroughly clean before reuse. No specific first aid measures are required. If exposed to excessive levels of material in the air, move the exposed person to fresh air. Get medical attention if coughing or respiratory discomfort occurs.

No specific first aid measures are required. Do not induce vomiting. As a precaution, get medical advice.

Treat symptoms.

Not available.

Use water fog, foam, dry chemical or carbon dioxide (CO2) to extinguish flames. Not available.

This material will burn although it is not easily ignited. For fires involving this material, do not enter any enclosed or confined fire space without proper protective equipment, including self-contained breathing apparatus.

Carbon monoxide, carbon dioxide, and unidentified organic compounds.

Eliminate all sources of ignition in vicinity of spilled material.

Do not let product enter drains.

Stop the source of the release if you can do it without risk. Contain release to prevent further contamination of soil, surface water or groundwater. Clean up spill as soon as possible, observing precautions in Exposure Controls/Personal Protection. Use appropriate techniques such as applying non-combustible absorbent materials or pumping. Where feasible and appropriate, remove contaminated soil. Place contaminated materials in disposable containers and dispose of in a manner consistent with applicable regulations.

Avoid contaminating soil or releasing this material into sewage and drainage systems and bodies of water. Electrostatic charge may accumulate and create a hazardous condition when handling this material. To minimize this hazard, bonding and grounding may be necessary but may not, by themselves, be sufficient. Review all operations which have the potential of generating and accumulating an electrostatic charge and/or a flammable atmosphere (including tank and container filling, splash filling, tank cleaning, sampling, gauging, switch loading, filtering, mixing, agitation, and vacuum truck operations) and use appropriate mitigating procedures. For more information, refer to OSHA Standard 29 CFR 1910.106, 'Flammable and Combustible Liquids', National Fire Protection Association (NFPA 77, 'Recommended Practice on Static Electricity', and/or the American Petroleum Institute (API) Recommended Practice 2003, 'Protection Against Ignitions Arising Out of Static, Lightning, and Stray Currents'. Container is not designed to contain pressure. Do not use pressure to empty container or it may rupture with explosive force. Empty containers retain product residue (solid, liquid, and/or vapor) and can be dangerous. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose such containers to heat, flame, sparks, static electricity, or other sources of ignition.

They may explode and cause injury or death. Empty containers should be completely drained, properly closed, and promptly returned to a drum reconditioner or disposed of properly.

Storage

Keep container tightly closed in a dry and well-ventilated place.

8. Exposure Controls / Personal Protection

Occupational exposure limits

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Туре	Value	Form			
Mineral oil (CAS 8042-47-5)	PEL	5 mg/m3	Mist.			
US. ACGIH Threshold Limit Values		·	·			
Components	Туре	Value	Form			
Mineral oil (CAS 8042-47-5)	TWA	5 mg/m3	Inhalable fraction.			
US. NIOSH: Pocket Guide to Chemic	al Hazards	·	·			
Components	Туре	Value	Form			
Mineral oil (CAS 8042-47-5)	STEL	10 mg/m3	Mist.			
	TWA	5 mg/m3	Mist.			
Biological limit values	No biological expo	sure limits noted for the ingred	ient(s).			
Appropriate engineering controls:	Handle in accordar	nce with good industrial hygien	e and safety practice. Wash			
	hands before breaks and at the end of workday.					
ndividual protection measures, such as	personal protective equi	pment:				
Eye / face protection	No special eye pro	No special eye protection is normally required. Where splashing is possible, wear				
	safety glasses with	safety glasses with side shields as a good safety practice.				
Skin protection	No special protective clothing is normally required. Where splashing is possible,					
	select protective clothing depending on operations conducted, physical					
	requirements and other substances in the workplace. Suggested materials fo					
	protective gloves ir	nclude: Neoprene, Nitrile Rubb	er.			
Respiratory protection	No respiratory prot	No respiratory protection is normally required. No respiratory protection is ordinarily				
	required under no	ormal conditions of use. In a	accordance with good industria			
	hygiene practices, precautions should be taken to avoid breathing of material. If					
	user operations generate an oil mist, determine if airborne concentrations are					
	below the occupational exposure limit for mineral oil mist. If not, wear an approved					
	respirator that provides adequate protection from the measured concentrations o					
	this material. For air-purifying respirators use a particulate cartridge. Use a positive					
	pressure air-supplying respirator in circumstances where air-purifying respirators					
may not provide adequate protection.						
General hygiene	Wash hands, forearms and face thoroughly after handling chemical products,					
considerations	before eating, smoking and using the lavatory and at the end of the working period.					
	20.0.0 000 g, 0110					

Appearance

Physical state	Liquid
Form	Liquid
Color	Light to Brown
Odor	Petroleum odor
Odor threshold	Not available
рН	Not available

Vapor pressure	<0.5Pa@20°C (Estimated value)
Vapor density	>1 Minimum
Boiling point	>280°C (Estimated value)
Melting point/Freezing point	Not available
Solubility (water)	Insoluble in water.
Density	0.84 kg/l - 0.93 kg/l(20 °C) (68° F)
Flash point	(Cleveland Open Cup) 220 °C (428 °F) Minimum
Partition coefficient	Not available
Flammability limits in air, upper, %by volume	Not available
Flammability limits in air, lower, % by volume	Not available
Auto-ignition temperature	Not available
VOC	Not available
Percent volatile	Not available
Molecular Formula	Not available
Molecular Weight	Not available
Other data	
Viscosity	41.4 mm2/s - 50.6 mm2/s @40°C (104° F)
Dissociation constant	Not available
Pour Point:	-36°C (-32.8° F) (Typical)

10. Chemical Stability & Reactivity Information

Reactivity	The substance is stable under normal storage and handling conditions.		
Chemical stability	Material is stable under normal conditions.		
Conditions to avoid	Incompatible materials. Heat. Hot surfaces. Flames.		
Incompatible materials	May react with strong acids or strong oxidizing agents, such as chlorates, nitrates,		
	peroxides, etc.		
Hazardous decomposition products	Carbon monoxide, carbon dioxide, and unidentified organic compounds.		
Possibility of hazardous reactions	No hazardous reactions known.		

11. Toxicological Information

Toxicokinetics, metabolism and distribution:
