

SHEARGLIDE® VO 686

Drawing Oil

Description

Shearglide® VO 686 is a light to moderate duty vanishing lubricant intended for stamping operations on ferrous and non-ferrous metals.

Shearglide® VO 686 leaves little to no residue, so the need for cleaning is usually eliminated. Any residue that might remain is easily removed with solvent or an alkaline cleaner.

Shearglide® VO 686 will evaporate if parts have time to sit before shipping.

Features/Benefits

Used Neat, Requiring no Dilution

No Post Operation Cleaning Required

Contains a Lubricity Agent

May be Applied by:

Dipped, Dripped, Brushed or Rolled

Physical and Chemical Properties

Property	77686
Density, lb/gal	6.49
Color	Light brown
Odor	Petroleum Distillate
Flash Point, °F	105
Sulfur	None
Chlorine	None
